

EZ GROW LAWN SEED MIXTURE

EZ Grow Lawn Seed Mixture The EZ Grow Lawn Seed Mixture is formulated to address rapid lawn reestablishment while ensuring aesthetic appeal. The 40% Turf-Type Tall Fescue contributes durability and drought tolerance, making the lawn capable of withstanding traffic and varied weather conditions. The 20% Turf-Type Perennial Ryegrass is essential for quick germination and establishment, providing immediate green coverage and aiding in erosion control. Another 20% is the Kentucky Bluegrass Blend, which contributes a rich, dense texture and a deep green color that enhances the lawn's visual appeal. The final 20% Creeping Red Fescue offers shade tolerance while its creeping growth habit helps keep the lawn together, filling in gaps and contributing to an even surface. Together, these seeds create a versatile, lush, and attractive lawn capable of speedy recovery and sustained health.

Mixture:

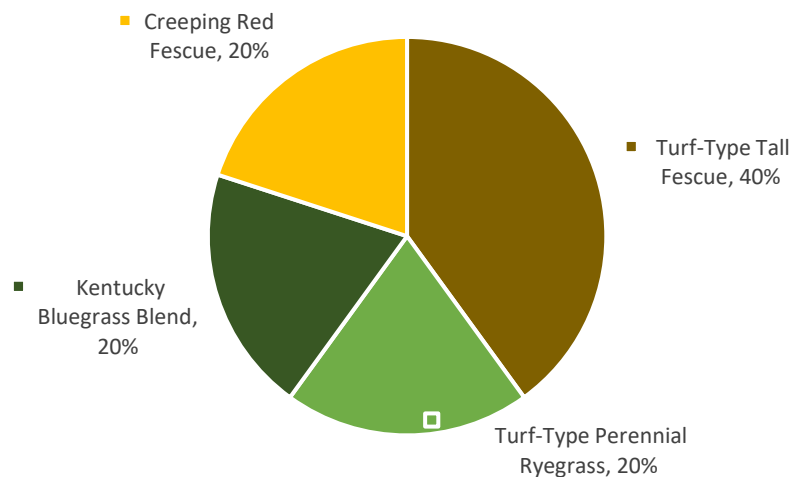

40% Turf-Type Tall Fescue

20% Turf-Type Perennial Ryegrass

20% Kentucky Bluegrass Blend

20% Creeping Red Fescue

EZ Grow Lawn Seed Mixture

Recommended Use/Seeding Rate

New Lawns:

- Rake area 2-3 inches deep to loosen soil
- Apply seed at approximately **4-5 lbs per 1,000 square feet**
- Lightly rake the seed into the soil so it is slightly covered
- Lightly water the seed 3-4 times per day for approximately 3-4 weeks

Seeding Existing Lawns:

- Mow the existing grass area at least 1 ½ inches high and remove the grass cuttings
- Apply seed at approximately **2-3 lbs per 1,000 square feet**
- Rake the planted surface so the seed will filter through the turf and make soil contact
- Lightly water 3-4 times per day until the grass is established
