

LOW GROW LAWN SEED MIXTURE

Low Grow Lawn Seed Mixture Our Low Grow Lawn Seed Mixture is the ultimate solution for establishing a low-maintenance, shade-tolerant lawn. It contains 40% Boreal Creeping Red Fescue, known for its shade tolerance and ability to create a dense, fine-textured turf. Complementing this, 20% Chewings Fescue is included for its adaptability to deep shade and lower fertility soils. Additionally, 20% Hard Fescue adds drought resistance and low-growing characteristics, while the final 20% Sheep Fescue contributes to the blend's fine texture and low maintenance requirements. Together, these fescues create a resilient, dense lawn with minimal upkeep, thriving even in deeply shaded environments.

Mixture:

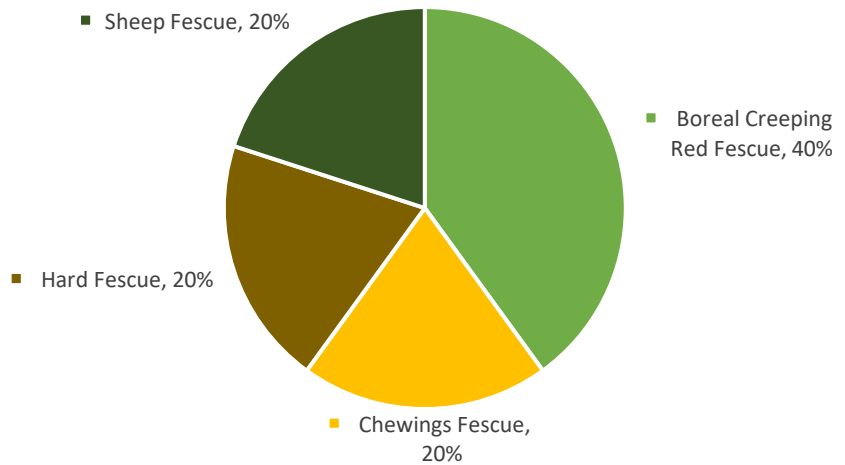

40% Boreal Creeping Red Fescue

20% Chewings Fescue

20% Hard Fescue

20% Sheep Fescue

Low Grow Lawn Seed Mixture

Recommended Use/Seeding Rate

New Lawns:

- Rake area 2-3 inches deep to loosen soil
- Apply seed at approximately **4-5 lbs per 1,000 square feet**
- Lightly rake the seed into the soil so it is slightly covered
- Lightly water the seed 3-4 times per day for approximately 3-4 weeks

Seeding Existing Lawns:

- Mow the existing grass area at least 1 ½ inches high and remove the grass cuttings
- Apply seed at approximately **2-3 lbs per 1,000 square feet**
- Rake the planted surface so the seed will filter through the turf and make soil contact
- Lightly water 3-4 times per day until the grass is established
